

# That was then...

Fouts Bros, Smyrna GA, 1952

# Fouts Bros

In 1952, CJ Fouts and his brother Jerry bought a Sinclair service station in Smyrna, GA, and Fouts Bros Inc. was born. In the following years, the brothers invested in several industries—auto and truck dealerships, commercial body manufacturing, real estate, and CJ's favorite hobby: fire trucks.

Now in the hands of the third generation of the family, Fouts Bros has grown CJ's passion into a thriving business. Today we're dedicated to offering the best value fire apparatus in the country, from our industry-leading 3000 gallon tankers to our newest product, the Fouts FOUR. Our production facilities have expanded and our engineering standards are cutting-edge, but our values haven't changed. Service, quality, and family first.

70 years later, still family-owned, still family-operated. Still Fouts Bros.
