

## Bucket Truck Technician

Fouts Bros is a family-owned business since 1952 with facilities in Georgia and Texas. Fouts Bros is proud to have become one of the largest and most diverse commercial truck manufacturers in the US. Fouts Bros is committed to developing new commercial vehicles that provide industry-best value, quality, and dependability.

Our company's core values are quality, efficiency, continuous improvement, safety, and teamwork. We believe in conducting business with honesty and transparency, continuously seeking new ways to improve and evolve, fostering relationships with our community and supporting local initiatives, and operating in an environmentally responsible manner to minimize our impact on the planet.

### Job Summary:

Bucket Truck Technician is responsible for assembling and installing various components on bucket trucks, including electrical systems, hydraulic systems, and mechanical components. This position works in a fast-paced environment to ensure that bucket trucks are assembled efficiently and effectively, while meeting customer specifications and quality standards.

### Key Responsibilities:

- Assemble and install electrical systems, including wiring, connectors, and electrical components.
- Install hydraulic systems, including hoses, pumps, and cylinders.
- Assemble and install mechanical components, including axles, suspension systems, and braking systems.
- Use hand tools and power tools to assemble and install components.
- Measure and cut materials according to specifications.
- Inspect assemblies to ensure compliance with customer specifications and quality standards.
- Conduct quality control checks to identify defects or issues.
- Work in a team environment to meet production deadlines.
- Collaborate with other assemblers and technicians to troubleshoot issues and resolve problems.
- Keep accurate records of work performed and materials used.

### Required Competencies:

- 2+ years of experience in a manufacturing or assembly environment.
- Strong attention to detail and ability to work precisely.
- Ability to work at heights, climb ladders, and lift heavy objects (up to 50 lbs).
- Physical stamina to work in a fast-paced environment for extended periods.
- Ability to read and interpret diagrams and manuals.

## **Physical Requirements and Working Conditions**

- Tasks require the regular and sustained performance of moderately physically demanding work.
- Some combination of climbing and balancing to include climbing ladders, stooping, kneeling, crouching, and crawling.
- May involve the lifting, carrying, pushing, and/or pulling of moderately heavy objects and materials (20-50 pounds).

## **Environmental Exposures**

Performance of essential functions may require exposure to adverse environmental conditions, such as odors, fumes, temperature and noise extremes, hazardous materials, toxic agents, machinery, heavy equipment, vibrations, or traffic hazards.
