Safety Precautions ♦ Reports/Documentation ♦ Result Execution ♦ Communication Skills ♦ Attention to Detail
Problem Solving ♦ Technical Support ♦ Conflict Resolution ♦ Time Management ♦ Process Improvement
Documentation & Control ♦ Strategic Planning ♦ Training & Development ♦ Project Management
Quality Control & Assurance ♦ Staff Management ♦ Leadership

PROFESSIONAL SUMMARY

Welder and Fabricator Stair South Inc.

March 2014 – Current

- Operates Aluminum and Metal Ornamental Fabrication for Stair South Inc. research equipment by setting up and performing stair welding and fabrication assignments.
- Reads blue prints, drawings, work orders, and written instructions to plan and lay out work, completing assignments with an emphasis on safety and quality.
- Demonstrates attention to detail during the process of fabricating small components, welding them together for assembly at the building onsite location.
- Fabricates various items according to customer's specifications, using stock sheet cut out by programmed machines or by hand, and joining pieces together by various welding techniques.
- Performs all basic preventative maintenance on associated equipment.
- Assists Supervisor and/or Team Leader in maintaining inventory accuracy and maintaining program.
- Follows all safety and PPE requirements per established company policies.
- Demonstrates ability to maintain, operate, repair, and install a wide variety of welding equipment.
- Excellent at leading and working within a team to produce quality products that met the organization's objectives.
- Trains new welders on various welding equipment systems.
- Maintains a daily maintenance checklist to ensure proper safety standards according to OSHA.

Welder and Fabricator Rescar

February 2009 – November 2011

- Performed a wide variety of welding jobs related to preventive maintenance, repair and construction. Using Arc Gouging and Flame Torch in cutting away old material and repairing it with new material as well as operating power equipment.
- Responsible for the use of various tools and equipment in the fabrication, assemble and erection of metal parts for the construction of modular units utilized in the various stages of the building of trains
- Examined workpieces for defects and measure workpieces with straightedges or templates to ensure conformance with specifications.
- Recognized, set up, and operated hand and power tools common to the welding trade, such as shielded metal arc and gas metal arc welding equipment.
- Executed pre-welding layout design work and jig preparation, fabricated items, and selected the proper welding tools and material to complete projects.
- Exceptional ability to read and comprehend welding blueprints, follow design specs, and assemble the final product according to its print.
- Planned, layout, fabricated, assembled, installed and repaired metal parts, equipment and products.
- Responsible for setting up and operation of fabricating machines.
- Trained and certified for stick welding and basic fitting practices.

EDUCATION

Baldwin High School
High School Diploma, 2001
